## INNOVATION AND QUALITY: RECOGNISED VALUES FOR OVER 150 YEARS

*Innovation is the driving force of the family run company which combines history and innovation from bell restoration to the development of software solutions for time management and production monitoring and the manufacture of clocks and scoreboards.*

The Bodet Group has always designed and manufactured its products in its Tremontines and Cholet facilities, which cover 14 000 square meters and host:

- ◆ Head office including, human resources, business administration, sales, accounting and export
- ◆ The technical services division: R&D, maintenance, IT, purchasing, and marketing
- ◆ The production site consists of metalworking, painting, woodworking, plastic injection, and electronic assembly workshops

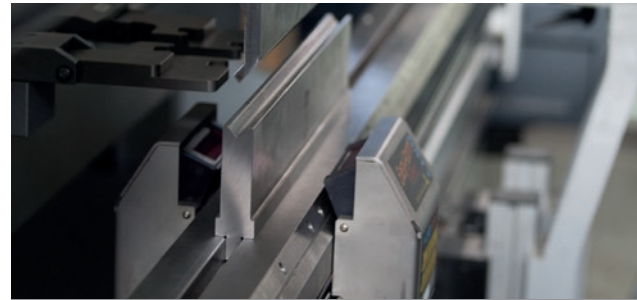

Bodet ensures the consistent quality of its products through its high quality manufacturing processes. Since 1997, Bodet S.A & Bodet Software have been ISO 9001 certified for their design, manufacturing and customer services.
