# A Leading IP Surveillance Solution Provider

VIVOTEK Inc. (TAIEX: 3454) was founded in Taiwan in 2000. The Company markets VIVOTEK solutions worldwide, and has become a leading brand in the global IP surveillance industry. Its comprehensive solutions include network cameras, video servers, network video recorders, PoE solutions, and video management software. Through the growing proliferation of IoT, VIVOTEK aspires to become the Eye in IoT by drawing on its expansive technological capabilities in image and audio.

The Company has established offices and subsidiaries in the United States (California), Europe (Netherlands), India (Delhi), Middle East (Dubai), Latin America (Mexico) and Japan in 2008, 2013, 2014, 2015, 2016 and 2017, respectively. To create a sound industrial ecosystem, VIVOTEK has expanded strategic alliances with leading international software and hardware partners and works with over 183 authorized distributors across 116 countries.

**CONVERGENCE of  
VIdeo, VOice and C〇mmunication TEKnology**

### **Environmental Commitment**

With the increasing environmental challenges of our time, VIVOTEK is deeply aware of the importance of coexisting with the environment for sustainable development. VIVOTEK has implemented a comprehensive, eco-friendly manufacturing policy applied to the product design, component selection, production, quality testing, packaging and shipping processes, effectively minimizing our carbon footprint on the environment. Together, we can be responsible stewards of a vibrant and sustainable future.

### **Green Design Guidelines**

- Eliminating the use of hazardous substances (HSF)
- Easy disassembly and recycling (WEEE)
- Eco-design (ErP)

# VivoCam L2+ Managed PoE Switch

The VivoCam L2+ series is the Layer 2 Plus managed PoE switch with IP surveillance management functions. This switch is not only a standard Layer 2 Plus managed PoE switch, but also able to set up and configure VIVOTEK IP cameras, video servers and allows users to find all VIVOTEK devices and deploy a surveillance network system automatically.

## PoE Solution - Commercial

# VivoCam Web Smart Managed PoE Switch

The AW-GEV Web Smart series is a VivoCam web smart managed PoE switch, combining powerful web smart managed features with graphic view functions, providing better functionality and usability. With single AW-GEV Web Smart series allows users to find all network devices and deploy a network system automatically. The AW-GEV Web Smart series also provides high performance HW and environmental flexibility for SMBs and Enterprises. In addition, embedded Surveillance features Graphic Views, such as Topology View/Floor View/Map View for controlling and understanding network structure and device status, as well as Google Map integration to view system status for outdoor applications. The device status and traffic monitoring functions also help users clarify and troubleshoot any connection or device issues. The AW-GEV Web Smart series is ideal for delivering management simplicity, better user experience, and lowering total cost of ownership.

# 10G L2+ Managed Switch

VIVOTEK's AW-GTS-287A L2+ Managed Switch is a next-generation Fiber Switch offering a full suite of L2+ features and additional 1G/10G SFP+ uplink connections. The AW-GTS-287A L2+ includes advanced L3 features such as Static Route that delivers a better cost-performance ratio and a lower total cost of ownership in both Enterprise networks and backbone via fiber or copper connections.

### Features

- 20xGE SFP + 4xCombo GE + 4x1G/10G SFP+ L2+ Managed Switch
- L2+ Managed Switch Provides Easier Manageability, Robust Security and QoS
- IPv4/IPv6 L3 Static Route and DHCP Server
- AC/DC Dual Power Supply for Redundant Design
- RS-232 Console, Telnet/Command Line Interface, SSH/SSL Secure Access, SNMP V1, V2c, V3, RMON, Web Browser, and TFTP Management

Operating Temperature	-20°C ~ 60°C (-4°F ~ 140°F)

## PoE Solution - Commercial

# Unmanaged PoE Switch

Fast Ethernet	Giga Ethernet
<p>VIVOTEK's FE unmanaged PoE switches equipped with DIP switch provides ST "STandard" and EX "EXtend" operation modes. It's a specially designed for IP Surveillance application, besides standard 802.3af/at PoE functions on ST mode, the EX mode transmits data &amp; power on one single cable up to 200 meters at 10 Mbps via specific EX ports for long reach PoE IP cameras. Meanwhile, this series also features adding extra 10% range of input voltage tolerance, lightning surge protection of AC power &amp; PoE surge protection to prevent the damage caused by outside unstable AC power, lightning surge and power spike. These unique features reduce the costs to replace damaged fault unit.</p> <p>VIVOTEK's FE unmanaged PoE switch has five sub models consisting of 6, 10, 10,18 and 26 ports with a range of power budgets from 60W to 370W for IP surveillance applications.</p>	<p>VIVOTEK's Gigabit Ethernet Unmanaged Switch series is a cost-effective solution for IP surveillance of extending network. These unmanaged Ethernet switches come in a wide range of models including desktop and rackmount form factors, 4 to 24 PoE ports, and power output from IEEE802.3af (15.4W) to UPoE (60W). These switches are energy efficient, built to last, and rigorously tested to provide the reliability businesses need.</p>

## PoE Solution - Outdoor

# Outdoor VivoCam L2+ Managed PoE Switch

VIVOTEK's outdoor VivoCam L2+ series is the Layer 2 plus managed PoE switch with IP surveillance management functions and it's outdoor ready with waterproof IP67, Vandal proof IK10 and surge protection each port up to 6KV. This switch is not only a standard Layer 2 plus managed PoE switch, but also able to set up and configure VIVOTEK IP cameras, Video servers and allows users to find all VIVOTEK devices and deploy a surveillance network system automatically.

Managing IP Surveillance	Managed Layer 2 Features

## PoE Solution - Outdoor

# Outdoor Unmanaged PoE Switch

### Plug and Play Installation with All-in-One Device

Fast Ethernet	Giga Ethernet
<p>VIVOTEK's FE unmanaged PoE switches quipped with DIP switch provides ST "Standard" and EX "Extend" operational modes. They are specially designed for IP Surveillance applications. Besides standard 802.3af/at PoE functions in ST mode, the EX mode also transmits data &amp; power on one single cable up to 200 meters at 10 Mbps via specific EX ports for long reach PoE IP cameras. VIVOTEK's FE unmanaged PoE switches also feature adding an additional 10% range of input voltage tolerance (280VAC 4hr, 300VAC 1min), lightning surge protection of AC power &amp; PoE surge protection to prevent damage caused by outside unstable AC power, lightning strikes and power spikes. These unique features help to reduce the costs of replacing damaged units.</p>	<p>VIVOTEK's outdoor unmanaged PoE switch is designed with IP67, IK10, 6KV PoE Ethernet port surge protection, 40KV surge protection in AC power, and hardened-grade operation from -40°C to 65 °C during harsh weather conditions. The outdoor unmanaged PoE switch enables outdoor connections of PoE devices to the network such as outdoor bullet cameras, outdoor PoE enclosures, speed domes, and other industrial applications. It provides multiport Gigabit PoE(10M/100M/1G) delivering data and power to PoE devices over a single network cable as well as additional SFP transceiver slots for flexible uplink. The outdoor unmanaged PoE switch also allows easy installation to reduce extra equipment and installation costs.</p>

## PoE Solution - Long Range Solution

# PoE Extender

The VIVOTEK PoE Extender series provides a simpler and easier implementation of long-range (up to 300 meters) surveillance system, solving cable length limitations and power supply issues for installers and system integrators. Given the limitations of data-transfer over Ethernet, the previous maximum distance between a PoE switch and network cameras were 100 meters. However, with VIVOTEK's new PoE extender technology, installers and systems integrators can now build wider networks while still maintaining reliability.

### Features

- Extend Range Up to 300 Meters (984ft)
- No Local Power Required
- Simple Installation, No Set-Up or Configuration Required
- Conduit Box Type for VIVOTEK Dome Camera Installation
- Outdoor Model Supports by AP-FXC-0160 / AP-FXC-0260

# PoE Solution - Long Range Solution

## EPoC Extender

The EPoC (Ethernet & Power over Coaxial) product line is a long-range solution providing Fast Ethernet and Power over RG6 coaxial cables up to 1200m for IP cameras. This product line is the best solution for transforming CCTV to IP cameras without needing to change legacy RG59 cables, thereby saving on wiring costs. Additionally, EPoC transmits both power and data to IP cameras whereas fiber solutions only provide data.

### Features

- Extend Ethernet and Power up to 1,200m (3,937 ft) over RG6 coaxial cable
- Support Ring topology up to 4 IEEE 802.3af camera for power redundancy
- Support Daisy chain topology up to 4 IEEE 802.3af camera
- Weather-proof IP67-rated and Vandal-proof IK10-rated Housing for outdoor
- Built-in 6KV Surge Protection for outdoor
- Easy installation for a smooth transition from legacy to IP camera
- Both Wall mount and Rackmount supported

### Application

## PoE Solution - PoE Injector

# PoE Injector

VIVOTEK launches a series of single-port PoE Injectors from 15.4W to 95W, meeting the requirements of a wide range of IP surveillance devices wattage output and providing easier installation. The AP-FIC/GIC series are designed with internal power supply in a compact housing. Carrying both Ethernet data and power simultaneously, it helps users to utilize just one Ethernet cable to easily install and deploy IP camera, wireless AP or VoIP phone networking in environments where power outlets are hard to find.

Features
<ul style="list-style-type: none"><li>• All-in-One Compact Size Design with Internal Power Supply</li><li>• Provide 1-Port PoE Power with Fast or Gigabit Ethernet</li><li>• Support PoE Power with 15.4W/30W/60W/95W</li></ul>

## Industrial Solution

# Industrial VivoCam L2+ Managed PoE Switch

The AW-IHT-1271 is an Industrial 8-port Gigabit PoE port (Supports 802.3 at/af, and total up to 240W) + 4-port Gigabit SFP L2 plus managed PoE switch with a wide operating temperature range from -40°C to 75°C and supports surge protection per port up to 6KV. The AW-IHT-1271 combines high hardware performance and environmental flexibility for use in outdoor surveillance, outdoor telecom, heavy industry, factory automation and transportation applications.

The AW-IHT-1271 supports surveillance features such as Topology/Floor/Map views for controlling and understanding network topology and device status. It not only features surveillance network environment set up functions, but also troubleshooting and traffic monitoring functions which help users to clarify and troubleshoot any connection and device issue. In addition, the AW-IHT-1271 also supports Rapid ring, a redundancy proprietary protocol with convergence time within 20ms and up to 250 switches.

## Industrial Solution

# Industrial Unmanaged PoE Switch

The VIVOTEK industrial unmanaged PoE Switch series is a robust and cost-effective solution for harsh IP Surveillance environment of extending network. These industrial-grade unmanaged PoE switches come in a wide range of models including din-rail, rack-mount form factors, as well as M12 connectors with EN50155 for mobile applications, from 1 to 8 PoE Ports, and power output from IEEE802.3af (15.4W) to PoH/PoE (95W). These switches are energy efficient, built to last, and rigorously tested to provide the reliability businesses need.

## Industrial Solution

# Industrial PoE Injector

The VIVOTEK Industrial PoE Injector series is designed for IP surveillance devices of wide wattage output and easy installation under extreme temperature from -40°C to 75°C requirements. With redundant power backup design, VIVOTEK industrial PoE injectors provide an imminently and sufficient back-up for unpredictable and unstable power environment. These industrial-grade PoE injectors are designed for wall-mount/din-rail mount, and power output from IEEE802.3at (30W) to PoH/PoE (95W) for different installation requirements.

## Industrial Solution

# Industrial Media Converter

VIVOTEK offers a series of Fiber to Ethernet and Gigabit Fiber to Ethernet media converters for Ethernet extension under harsh environment. It is equipped with one RJ-45 cooper and flexible options SFP slot interface in a rugged metal case with redundant power system. VIVOTEK industrial media converter allows effortless and convenient long-range installation.

## Accessories

# Cabinet Solution

AT-CAB-001

AT-CAS-001

VIVOTEK's AT-CAB-001 and AT-CAS-001 are complete and outdoor-ready surveillance cabinet solutions, built to provide easier installation for any application of VIVOTEK's full range of network cameras, including speed domes, bullets, and fixed dome network cameras as well as for VIVOTEK's outdoor camera enclosures.

In order to cover a wide range of surveillance projects, users can choose from a cabinet only or all the way up to a complete cabinet with power supply, industrial PoE device, fiber media converter, and surge protection kit. IVOTEK's AT-CAB-001 and AT-CAS-001 therefore provide both a flexible and turnkey solution for any surveillance scenario. Additionally, by equipping VIVOTEK's AT-CAB-001 and AT-CAS-001 with weather-proof IP66-rated and vandal-proof IK10-rated housing, VIVOTEK ensures full protection against both harsh environments and acts of vandalism. This extra protection makes this series the perfect choice for any exposed outdoor application, such as city surveillance.

### Features

- Support All VIVOTEK Cameras
- IP66/IK10
- -40°C ~ 75°C
- AC & PoE Surge Protector Included
- Single and Multiple Camera Applications

# CaMate Illuminators

CaMate

VIVOTEK's CaMate illuminator is a series of professional IR illuminators designed with Continuous Variable Angle Technology (CVA Tech), providing highly efficient intensity and uniform distribution to fit 10° ~ 180° FOV via adjustable beam angles up to 350 meters. The series offers multiple options for outdoor and long-distance in many applications such as traffic LPR/ANPR, airports, parking lots and many more.

### Features

- Continuous Variable Angle Technology (CVA Tech)
- Variable Field of View 10° ~ 180°
- Adjustable Beam Angle up to 350 Meters
- Adjustable Light Sensitivity via RS485 Command
- Control Beam Angle and IR Power via RS485 Command
- Weather-proof IP68- and Vandal-proof IK10-rated Housing
- Extreme Weather Support
- Flexible Installation
- Five-year Warranty

### CVA Tech (Continuous Variable Angle Technology)

Conventional Illumination

Illuminator with CVA Tech

- High Uniformity without Hot Spots and Overexposure
- Accurate Image Quality with Special Beam Patterns for Different Solutions
- Optimizes Energy Efficiency

### Adopting Models

#### CM32 Series

#### CM48 Series

#### CM80 Series

#### CA80 Series

- 32W IR Illuminator
- 10° /35° FOV
- Fixed Beam Angle
- IP68, IK10

- 48W IR Illuminator
- 10° ~ 180° FOV
- Adjustable Beam Angles up to 250M
- IP68, IK10

- 80W IR Illuminator
- 10° ~ 120° FOV
- Adjustable Beam Angles up to 350M
- IP68, IK10

- 80W IR Illuminator
- 10°~40° FOV
- Adjust Beam Angle with Remote Control
- IP68, IK10

## • Specifications

CM32 Series		
Model	CM32I8-10	CM32I8-35
 		
Illumination Map		
 <p>The graph illustrates the illumination range (m) versus beam angle for two models. The CM32I8-10 model has a beam angle of 10° x 10° and an illumination range up to 180 m (590 ft). The CM32I8-35 model has a beam angle of 35° x 25° and an illumination range up to 60.9 m (199 ft).</p>		
Product Information		
Beam Angle (HxV)	10° x 10°	35° x 25°
Distance	180 m (590 ft)	60.9 m (199 ft)
Beam Pattern	Circle	Elliptical
LED Array	12 pcs	
Wavelength	850 nm	
External Input	Digital input*1 (LED ON/OFF control input)	
External Output	Digital output*1 (Day/Night detection output) Digital output*1 (Error status output)	
Automatic IR On/Off	Controlled by Light Sensor	
Light Sensor Sensitivity (On/Off)	600/1000, 300/600(default), 50/200, 3/30 Lux (accessed via CM32 DIP switch)	
General		
Power Input	24 VAC ±20%, 24 VDC ±10%	
Power Consumption	Max. 32 W	
Operating Temperature	-40 °C ~ +60 °C	
Working Temperature	-40 °C ~ +60 °C	
Dimensions	157 x 105 x 80.62 mm (6.12" x 4.09" x 3.14")	
Weight	0.85 kg	
Cable Length	0.75 m (2.46 ft) UL AWM	
Casing	IP68, IK10	
Safety Certifications	EN 50130-4, CE: EN61000-6-3, FCC Class B, EN60529	
Humidity	90%	
Included Accessories		
Bracketry	U-Type Bracket (68.4 x 25 x 15 mm)
