General Features

Hardware Features

Software Features

Elevate student engagement with our array of Android 13 applications. Our series is equipped with a built-in Android 13 OS, featuring a customizable user interface that encompasses all the essential features for teachers and students. Experience a multitude of applications, including our annotation tool, screen sharing/mirroring application, file/cloud manager, OfficeSuite for document work, web browser, video conferencing, and account management system. Unlock limitless possibilities for learning and collaboration with our comprehensive platform.

File Manager

Effortlessly organize, access, and manage your files with the intuitive and user-friendly File Manager application, revolutionizing your digital workflow with our Interactive Flat Panel Displays (IFPD).

Cloud File Manager

Effortlessly organize and access your Google Drive or Dropbox files from anywhere with our intuitive cloud file manager app.

MultiMedia Player

Enhance your visual presentations with the versatile Media Player application, enabling seamless playback of high-definition multimedia content for dynamic displays.

Chromium Browser

Explore the web effortlessly with the Chromium Internet Browser application, providing smooth and convenient access to online content for an enhanced browsing experience.

Effortlessly connect and collaborate with the Vmeet Webcon application, enabling seamless virtual meetings and interactive web conferences for enhanced communication and productivity.

Vdraw

Unleash your creativity and foster collaboration with the Vdraw Whiteboard application, providing a versatile digital canvas for interactive brainstorming and visualizing ideas.

ESharePro

Effortlessly share your screen and collaborate seamlessly with the ESharePro Screensharing application, enabling efficient content sharing and real-time collaboration for enhanced productivity.

OfficeSuite

Experience a comprehensive and feature-rich office suite with the Officesuite application, providing powerful tools for document creation, editing, and collaboration to streamline your workflow.

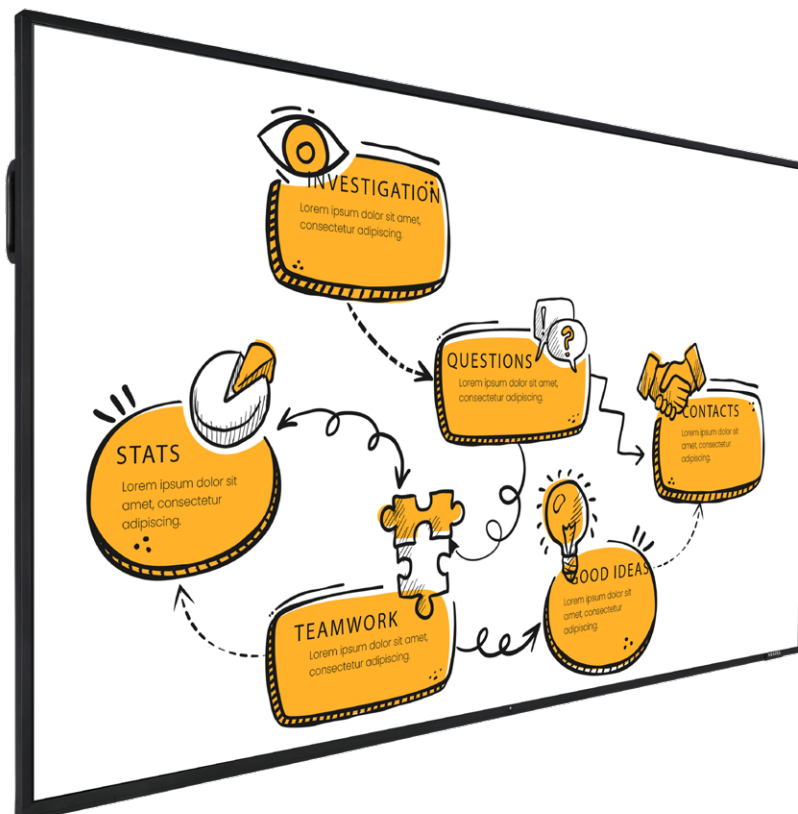

AquaMail

Efficiently manage your emails and stay connected with the AquaMail application, offering a user-friendly interface and powerful features for seamless communication and organization.

Whiteboard Application for Flawless Teaching Experience

Flawless Teaching Made Easy with our Whiteboard Application Series. Designed for educators, our compact design provides essential tools for annotating, drawing, and highlighting. With features like pen and highlighter size selection, color options, dual pen recognition, shape recognition, background templates, QR/email sharing, infinite canvas mode, screen recording with audio, PDF import, 3D shape support, and more, our whiteboard application enhances your teaching materials and allows for seamless annotation of cropped screenshots from any source. Elevate your teaching experience with our powerful and user-friendly whiteboard application.

VAMS: Vestel Account Management System

One of the prominent features of the series is the Vestel account management system: VAMS. Using the system users login passwords can be setup remotely. For advanced usage, the cloud-based system can be utilized to setup below teacher profile items securely:

- User/Password creation
- UI Customization for background and profile images
- Favorite Apps selection for users
- Display and Group management
- Send Commands to Displays
- Urgency/Warning Messages(Text, Image, Video)
- App installation
- Predefined background images
- User & Display Usage Statistics
- Sensor Box*(if installed) Data Statistics

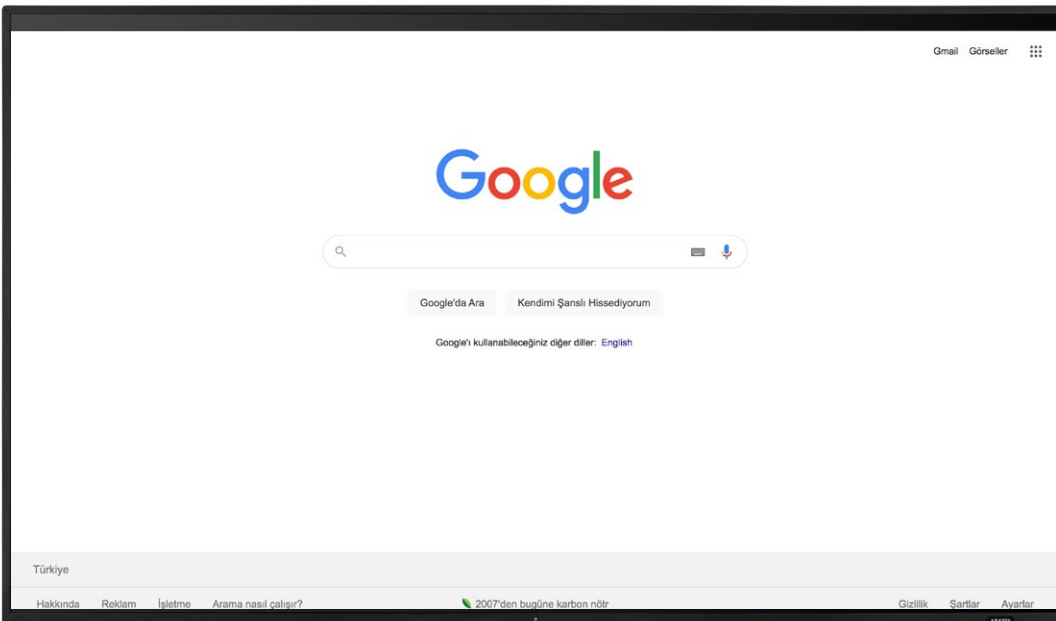

EsharePro App: Wireless Screen Sharing

Wireless screen sharing empowers users to share any external content without any cables. Whilst utilizing embedded Wi-Fi technology, the Series carries EsharePro application, a multi-screen Interactive Screensharing Tool. Using only QR codes, users can connect to the display by any device (Windows, Android, MacOS, iOS, Chrome), create Multiscreen experience and Annotate on the display wirelessly.

Open/Edit Documents with OfficeSuite

Experience unparalleled productivity with the OfficeSuite application, designed to empower users to open, edit, and write into any document, spreadsheet, or presentation on their IFPD files and folders. With OfficeSuite, you can seamlessly work on your files and folders with ease, while streamlining your workflow and maximizing your productivity.

Internet Browser to Access Internet Content for Classroom

Elevate your teaching experience with the series, equipped with Chromium as the default internet browser, providing seamless access to the internet. With the help of the quick palette tool, teachers can effortlessly annotate on top of internet content, allowing for a more interactive and engaging classroom. Save annotated content and work on it more effectively, taking your lessons to the next level.
